PRINCIPAL

7/14/2017

Dear Parents,

This letter is to inform you of a change to the newsletter sent to you earlier this summer. The high school administration worked with the technology team to find computer laptop bags that will allow students to keep their laptops in the bag at all times to limit damage and wear on the devices. The computers will be handed out with the bags and the fee for the bags will be part of the student's fees for the year. You will not have to pay for the bag on the night you pick it up. The newsletter states students can use last year's bag or buy one of comparable size. Please disregard that statement because it does not pertain to the new laptops we have purchased for the students. I apologize for any confusion this has caused. We look forward to seeing you on July 31 or August 1 for computer distribution.

Sincerely,

Mike McCoy, Ed.S  
Principal
